

Dear Sirs

The design laboratory "1-st Dirigible" works in the field of creative solutions for design and advertising since 1991.

All our projects are creating with individual approach to every client and using only authorial and unique decisions.

We work using all actual methods and means for solving problems of any complexity level as for concrete and specific design tasks as for solutions that are the parts of defined marketing strategy.

We have successfully cooperated in work with different advertisement agencies and clients from Ukraine, Russia, Denmark, Norway, Israel, US.

Our approach to design is based on the thorough analysis of modern tendencies, target audience profile, technological possibilities of manufacturers, specific regional factors, etc.

Using approved project management methodologies we provide required solutions directly in defined time terms and with guaranteed quality.

During this time we have successfully completed projects in nearly all design areas:

- logos and identity;
- Web-design and multimedia projects;
- User interfaces for software applications;
- Illustrations and all types of graphic works;
- Printing of different formats;
- Stage sketches for 3D-animation;
- Motion graphics;
- Packaging and labels;
- Visual identity ...

Projects from our portfolio became the winners and finalists of the international and national competitions and festivals:

- 16th Moscow International Advertising Festival ;
- Advertising competition "Advertising Ruff 2006" ;
- International Advertising Festival "Idea 2005" ;
- "Identity: Best of the Best 2006" ;
- "DeArt Moscow 2005" ;
- "Kiev International Advertising Festival" (2001-2002) ;
- "Sun Awards 2003" ;
- "Advertising formula 2002" ;
- "Graphite 2002" and others.

DIRIGIBLE SOUNDS

Seven simple tones are able to reflect any happening, feeling or emotion that we ever lived through. They combine in a certain way – and we are born. The temper changes – and it is the first kiss. Sound fusion gets rougher with the first fight. Everything fades, and the tune flows out of calm – you watch your children sleep. Thousands of sound's shades share millions of strands of your life – so sophisticated and beautiful. Life which is worth to be told about.

So, seven tones and myriads of derivatives. That is not all.

Modern techniques and precision tools to work with sound, years long experience, knowledge of the musical twists and turns, pro's teamwork and each instrument's ability to go solo – all this is your orchestra. Awaiting orchestra.

Just recall, feel and hold the feelings. Choose a story or yours to be told first.

Dear Sirs

Dirigible Sounds is the production studio that creates unique and exclusive audio materials for various types of projects.

We create music and sound for advertisement, broadcasting, movies and animation, web-sites, computer games, and others. We work with advertising agencies, TV channels, production studios, cinemas, producing companies, and private persons. We offer full cycle sound production solutions and create an original music you need.

Dirigible Sounds provides first class composing, arrangements, mixing and music production services to artists in any part the world. We will help you compose and arrange songs to reach their highest potential, to mix or remix songs of any style and format.

We know that music is what captures the attention and emotions of people. We can compose music that holds the very essence of you in it and impact listeners with your message.

Our team includes professional musicians, composers, arrangers and sound engineers. Our experience allows delivering you the top quality product and service that you can rely on.

Dear Sirs

Dirigible Films is a full-cycle production studio which unites first class specialists in advertisement, films, design and music. We make wide range of media products at professional level: video, animation, audio, photography. Our specialists have wide experience in co operation with clients, studios and advertising agencies worldwide.

Mobility, originality and professionalism are our major advantages. We want to help you look professionally and unforgettably. We create films that reach your audience, deliver the message, and achieve the results you want. Clear organizational management and efficient approach make us attractive for cooperation. We are able to realize projects of wide difficulty range for any media.

We can provide separate kinds of works from concept formation and script writing to final processing of filmed footage. We are also able to organize and manage the whole project's process.

We work professionally and efficiently, we "hear" you and make all your wishes a reality.
